Completed User Feedback Forms

Site opens and works in browser	Site works well and opened fine.
Clear consistent navigation	Navigation is clear and easy to use.
Text is correctly spelt with good grammar	Text and grammar are well for the most part. Inconsistencies with contractions (hours-hrs) and capitals in some areas. Some issues I noticed: Spelling: (un)available, exclusively. Grammar: An iPhone.
All images and content are relevant	Images and information match the content and are relevant.
Do you think the website meets the purpose?	The website meets its purpose by being informative and detailed.

Please comment on the overall look of the website	Clean and consistent. However the "Services" page looks a little messy due to the box / text sizes.
Please comment on the usability of the website	Front page "Accessories" hyperlink does not work. Apart from that, everything worked.
Do you think the website is suitable for my intended audience of any one who is interested in buying mobile phones.	Absolutely. Every page is filled with details and can help a user find the perfect mobile phone
Suggestions for improvement to the website.	Make the services page look a little more consistent and the text in-line.

---------------------	----------	------	----------

Site opens and works in browser	Yes
Clear consistent navigation	Yes
Text is correctly spelt with good grammar	Yes
All images and content are relevant	Yes, images on brand pages match the brand
Do you think the website meets the purpose?	Mostly, I think more details of services offered could be included on the services page

Please comment on the overall look of the website	Simple design and easy to navigate around with clear page links that are relevant to the contents. The form on the contact page is centred which looks quite dated.
Please comment on the usability of the website	Easy to use, navigate and interact with.
Do you think the website is suitable for my intended audience of any one who is interested in buying mobile phones.	Yes
Suggestions for improvement to the website.	<ul style="list-style-type: none">- Add more services to the services page- Left align the form field and labels on the contact form.

Added more links to sim only deals and phone repairs, I also added titles to the page.

Added the links to the online forums, removed the “Services” column in the table and added the links above it with the sub-heading to “Support” to make the links easier to access.

Updated Design Documentation

Storyboard	Change
	<ul style="list-style-type: none"> Added more subheadings and changed the layout of them.
	<ul style="list-style-type: none"> Added a video “How to choose the best phone for you”.

Minor Changes
<ul style="list-style-type: none"> On the Apple iPhones page I decided to move the video below the iPhone 15 image and text, instead of to the right of it. I believe that this made the presentation of the video more appealing since the video is bigger. I resized the images of the iPhone 13 (200 x 275px) and 14 (200 x 267px) to 240 x 369px to match the image size of the iPhone 15, to improve the presentation of the page. I resized most of the phone case images to match the size of others to make the layout of the page equal and clean, to improve the presentation of the page. I decided to add a hyperlink to the site banner that directs you back to the homepage to improve the usability of the website. I have changed the table contents, which will be the prices and specifications of the phones allowing users to compare prices of each phone better.
